FABRIC & PERFORMANCE

Our furniture can be specified with a wide range of contract-grade fabrics developed for demanding hospitality, commercial and public-space environments. Flame-retardant fabrics meet major European, British and international requirements, including EN 1021-1/2, BS 5852 Source 0 & 1, BS 7176 , EN 13501-1 B-s1,d0, NFPA 260 and Crib 5. High-performance upholstery options are available with high abrasion resistance up to 1.000.000 rubs, Easy Clean and stain-free finishes, as well as selected recycled and sustainable constructions. Fabrics, colours and performance specifications can be adapted according to individual project requirements.

FAST DELIVERY. GLOBAL STANDARDS.

From specification to production, Atlas Contract is structured for fast project execution and reliable international delivery. With manufacturing in Türkiye and experience supplying contract projects across Europe and United States and international markets, we combine flexible production with materials developed to meet the technical requirements of modern hospitality interiors.
